

MGM To Be a Major Sponsor at the Aug Western Slope IDPA Match

The first regional IDPA sanctioned match at Western Slope will be held in the great state of Colorado August 14, 2010. The exciting IDPA match will be held at the San Juan Shooting Range outside of Montrose, CO. MGM has stepped up to become a major match sponsor. One of the more challenging targets used in the event will be the MGM Attack Target. This target is designed after the Tueller Drill and travels at the rate of 21 feet in 1.5 seconds simulating an attacking person.

Greg Brose, who is heading up the event, stated that he has received many contributions for the prize table including donations from MGM, Comp Tac, Wilson Combat, Shooters Connection, CPWSA and Hogue Grips. With a loaded prize table Greg is hoping to, "bring back the enthusiasm that was once here for this sport." He believes that they have set the stage for a safe and challenging match. His hopes are high to attract new shooters to the contest and to prove that Colorado can help to increase the number of IDPA Shooters.

With the beautiful surroundings of Montrose, CO including the Black Canyon of the Gunnison, the Ouray Hot Springs Spa, ample room for four wheeling and a table full of prizes this event sure sounds like a winner. You can find a link to the match at www.bxstidpa.com for more information.

MGM is always proud to do what it can to help the promotion of the shooting sports.
